

Though it is not necessary that everyone bring these items, the more of them at the site, the better:

1. Wheelbarrows
2. Shovels and digging tools like posthole diggers and rock bars
3. 3/8" Drive sockets & wrenches (9/16" and 1/4" are the most needed sizes)
4. (4) Hammers
5. (1) Maul
6. Tape measures
7. Hand levels
8. Step ladders
9. Vise Grips
10. Utility Knives
11. Power Drill (Cordless if available)
12. Pitchforks (if installing Wood Fiber Safety Surface)
13. Loads of enthusiasm

One note: individuals bringing their own tools should consider marking them. A 5/16" allen wrench looks like anyone else's wrench, and it can be frustrating to lose just one part of a set!
